SMPS Seattle: Multiply Mentorship Program

Seattle, WA – The Society for Marketing Professional Services (SMPS) Seattle Chapter is introducing the Multiply Mentorship Program for A/E/C marketing professionals. Applications are due by January 26, 2018, to Chris Imbeau at cimbeau@rafn.com.

The year-long program will support the growth and development of both the mentor and mentee. Through the Multiply program, mentee applicants will be matched with a mentor and encouraged to engage in monthly meetings to establish career track goals, work through current challenges, and be inspired to grow in their profession.

The program is free, but participants must be current SMPS members.

To find out more about the Multiply program, or to download the mentor and mentee application forms, visit the program page on the SMPS Seattle website:
http://smpsseattle.org/Mentorship_Program.

SMPS is a national association that promotes marketing and management success in professional service firms. The Seattle Chapter of SMPS is one of the oldest chapters in the United States. It is comprised of approximately 250 members who work in or support the local A/E/C industry.

For more information on SMPS, visit www.SMPSseattle.org
