

Tabor 100 – Education Committee

Green Energy Scholarship -- \$3,000

Call for Applications -- Due Aug. 2, 2019

Fall 2019 – Spring 2020 Academic Year

[Green Energy Application](#)

We are accepting applications from virtually all major fields of study, as long as you can show us your career orientation supports working in green or sustainable energy arenas.

This Green Energy Scholarship Program is one of several scholarship programs hosted and operated by the Tabor 100 organization. Our supporting partners in this program are Boeing Employees Credit Union [BECU] and additional sponsors.

There will be one Green Energy Scholarship awarded, potentially renewable for a total of three years. [Maximum full amount: \$9,000 per scholar]

In selecting the Tabor 100 Green Energy Scholarships recipients, the selection committee will follow the guidelines outlined below. These guidelines are deemed to be critical elements in assessing the achievements, character, and future potential of the candidates under review. Taken as a whole, they afford an excellent evaluation metric, and the selection committee should take care not to put any one element above all others.

APPLICATION CRITERIA:

1. The candidates shall be African American student or minority students, enrolled in or enrolling in an academic course of study that helps prepare them for a career in “Green Energy”.
2. All candidates will have a home residence within the Puget Sound, WA area and be pursuing a course of study at a college or university within the United States.
3. The candidates shall have a track record of high academic achievement and/or potential.
4. The candidates should be in clear financial need.
5. The candidate’s personal history and actions should be consistent with Tabor 100’s mission:

“Tabor 100 is an association of entrepreneurs and business advocates who are committed to economic power, educational excellence and social equity for African-Americans and the community at large.”

6. The candidates’ personal history and actions should reflect that he or she has created, or is working to create, something of benefit to the next generation.
7. The candidates’ personal history and actions should show a willingness to pass-on their good fortune to others in need and reflect a spirit of generosity.

8. The candidates' personal history and actions should show that he or she is helping to build the community.

APPLICATION AND SELECTION PROCESS

The Green Energy scholarships are offered to undergraduate and graduate students in colleges or universities within the Puget Sound Energy service area, or residents of that same service area attending university within the United States.

1. All applications will be reviewed and scored based on personal statement and essay, letters of recommendation, applicant responses, GPA, possible interview, and thoroughness of the application package.
2. A Tabor 100 selection panel will review finalist applications and an in-person or telephone interview may be required for final selection.
3. Local award recipient[s] must be willing to attend an award event to be held in Seattle, Washington in mid-late September each year.
4. Application materials are attached and are available for download at the Tabor 100 Web site.
5. No applications will be mailed from or available in the Tabor 100 offices.
6. All completed application packages must be received at the Tabor 100 office by 8/2/19.
7. An email confirmation of receipt will be provided to each eligible applicant.
