

CITY OF TUKWILA

FIRE STATION 52

LYDIG

Fire Station 52

The new Station 52 is proposed to be a 15,068 SF, 3-bay station that will house one ladder truck, one aid car, and one Battalion Chief vehicle, as well as the administrative headquarters for the Fire Department. It will also include a training room that will double as a backup emergency operations center for the City, and accommodations for two community outreach programs: the Ham Radio Club of Tukwila and the Fire Department Explorers Group.

Get Involved!

If you're a subcontractor and would like to learn more about how your company can participate in this project, please visit:

www.lydig.com/subcontractors-partners.

If you'd like to participate as a tradesperson, or are considering a career in the trades, please review the Pre-Apprenticeship Program information on the back of this flyer.
