

Job Title: Gas Worker

Puget Sound Energy is looking to grow our community with like-minded, top talented individuals like you! With our rapidly growing, award winning energy efficiency programs, our pathway to an exciting and innovative future is now.

PSE's Gas Operations team is looking for qualified candidates to fill an open **Gas Worker** position!

Job Description

Safety is the number one priority for Puget Sound Energy. This position requires participation in safety and tailgate meetings, performing safety inspections, identification and reporting of safety incidents and unsafe conditions, obtaining and maintaining required licenses and certifications and participation in emergency response drills.

This position holds responsibility for gas safety compliance with PSE's Gas Operating Standards and Gas Field Procedures when engaged in operating, maintaining, constructing PSE's natural gas system, customer equipment, and/or leased equipment. Construct, install, maintain, inspect and operate gas piping systems consistent with standard practices and safety regulations. Work within the Incident Command Structure. Perform similar and incidental duties as required. Interact and communicate with co-workers, contractors, emergency personnel and the public. Participate in meetings and problem solving groups with coworkers and management. Documenting inspections and work activities. Should be readily available for call outs to respond to emergencies. Actively participate in a structured On the Job Training program.

Achieve and maintain proficiency in current and new technologies.

Job Responsibilities

- Assist journeymen
 - Flagging
 - Participate as a member of a crew to perform planned and unplanned work
- Perform meter maintenance and data gathering (AMR/AMI/Chart changing/ battery changing)
- When qualified by training, can perform maintenance activities including measuring pipe-to-soil potentials, wrapping, painting as necessary.
- In addition to the above responsibilities, Gas Worker III and Gas Worker IV will also perform the following tasks independently:
 - Meter changes and associated equipment light-up on A425 and smaller meters at inches delivery pressure for the following circumstances: Select Sample meter changes, Failed Family meter changes and customer or field generated meter changes not related to billing issues
 - Meter set turn-offs
 - Locate and operate service valves
 - Operate motor vehicles in a safe, professional, and courteous manner in accordance with Company Policy Manual requirements.

Minimum Qualifications

- Must have the ability to communicate effectively with others and respond to public inquiries or concerns.
- Must maintain necessary certifications and licenses, and have a working knowledge of all Company standards, practices, policies, procedures, safety regulations, codes and State regulations as they pertain to the job.
- Must possess a valid driver's license.
- This position may require the applicant to have and maintain a Commercial Driver's License (CDL) including necessary endorsements and removal of air brake restriction.

- Must be able to comply with safety sensitive components of the DOT Pipeline Operator Regulations

Prior to performing all assignments of the position unobserved, the applicant must become fully qualified in all Operator Qualification (OQ) tasks required for each level of the Gas Worker classification as defined in PSE's Operator Qualification Plan and must remain current in all Operator Qualifications required for the position.

- Gas Worker I: Coincides with the start of phase 1 of the structured On the Job Training Program
- Gas Worker II: Coincides with the completion of phase 1 of the structured On the Job Training program
- Gas Worker III: Coincides with the completion of phase 2 of the structured On the Job Training
- Gas Worker IV: Coincides with the completion of phase 3 of the structured On the Job Training program

Desired Qualifications

Additional Information
